Haig's Guns Roar At St. Quentin

American Army Is Now Hammering At Metz

BRITISH COMMANDER OPENS UP NEW OFFENSIVE AGAINST FORTRESS PROTECTING CITY

WITH THE BRITISH FORCES IN FRANCE, Sept. 21—English troops attacked the German lines midway between Havrincourt wood and St. Quentin at 5:30 o'clock this morning on a front from two and one-half to three miles.

Field Marshal Haig's thrust was made toward the strip of high ground in front of the Hindenburg defenses, which cover the Scheldt canal.

LONDON, Sept. 21.—The British attack against the Hindenburg line northwest of St. Quentin was resumed this morning east of Epehy, says the official report from Field Marshal Haig today.

PARIS, Sept. 21.—The Germans appeared to be hastening the removal of the civil population of St. Quentin and fires have been observed in different part of the city, says Marcel Hutin in the Echo de Paris. The Germans, he adds, are placing numerous batteries in St. Quentin.

PARIS, Sept. 21.—In their drive for the outflanking of St. Quentin on the south, the French last night captured the own of Benay and made progress north of that place, says todays' war announcement.

"Because of difficult communications over the vast amount of ground covered by the operation, it is not possible as yet to estimate the number of prisoners taken, but it is known that 5,000 prisoners and 80 cannon have been captured.

The offensives of the Greeks and British in the Lake Dorian region, which has been marked by furious battles, continues to progress. Violent counter-attacks have been made in vain by Bulgarian forces."

UNDERTAKERS TO HOLD ANNUAL CONVENTION

Richmond will be well represented at the fourteenth annual convention of the California Funeral Directors Association, which convenes for four days in San Francisco, Monday, September 23. Several hundred undertakers from all parts of the state will be in attendance.

Sessions of the association will take place at the Civic Auditorium and headquarters will be at Hotel Whitcomb. A program crowded with special entertainment features that will include the wives of the visiting undertakers has been announced by Charles H. J. Truman of the Truman Undertaking Company of Oakland, president of the association.

Subjects of national importance will come up for discussion during the meetings, including the relation of the undertaking profession to the world war. President Truman has announced the following topics: "The Undertaker and the Law," "Industrial and Social Insurance," "Embalming in all its Phases," "Insurance and Compensation Problems," and "The Funeral Director and His Troubles."

Among the prominent speakers will be H. H. Williams of Honolulu, Charles A. Renouard of New York, Bessie J. Wood of Oakland, Will H. French of the State Industrial Accident Commission and Attorney R. C. Young of San Francisco.

The present officers of the association are: Charles H. J. Truman, Oakland, president; C. N. Cooper, Oakland, first vice president; Frank Welti, Santa Rosa, second vice president; H. W. Maas, San Francisco, secretary, and Frank T. Bevan, Marysville, treasurer.

This evening, at the Chamber of Commerce rooms, in the Elks building the foreign language committee will hold a meeting, which has been called by the chairman of the general committee, A. G. Papadakis. The meeting is to consider the means of handling the fourth Liberty Loan, and it is expected that everybody connected with the work will be on hand.

Chairman A. G. Papadakis has appointed the following committee chairman, who will look after the work for natives of the several foreign countries represented in this city: Italian, L. Chasseur; Portuguest, J. B. Silveira; German, Rev. A. Bahnsen; French, Mr. Rupertin; Greek, A. G. Papadakis; Swiss, Theo Marcollo; Swedish, Mr. Magner; Mexican, Jose Rosales; Japanese, J. Kadonia; colored, Mr. Wagner; British, Mr. Powell.

The advisory board of the local exemption board will begin holding its sessions next Monday in the store room formerly occupied by James E. Cryan as a cigar and pool room, across Sixth street from the post-office.

This advisory board is made up of 25 attorneys and men who are competent to handle the work of assisting registrants to fill out their questionnaires and they will hold their sessions from 2 o'clock in the afternoon until 5, and from 7 o'clock in the evening until 9.

The advisory board has a big task on its hands, but they have determined to attend to it in a manner that will be satisfactory to the exemption board and the registrants. They are working without compensation and will continue to hold sessions for this work until the task is completely finished. Every registrant is entitled to their services free.

In the Back

German "Efficiency" has never reached a higher plane than in the foul desecration of the Red Cross emblem in the bombing of plainly marked hospitals in the allied lines.

"Here are many allied officers and men," says the Kaiser. "If they were not wounded, they might dodge our glorious airplanes as bombs are dropped. Being wounded, they cannot move, and so they are killed in their beds or in the air as their beds are blown out from under them.

"Gott being with us, let us blow up all the Red Cross hospitals we can."

So the "Greatest Mother in the World" remains a shining mark for the "Superbeast's" efficient elimination of his enemies.

Since Allied airplanes have become regular visitors to German cities, the Kaiser has discovered such bombing to be a violation of international law.

Your subscription to the Fourth Liberty Loan will mark the earnestness of your approval of the building of great fleets of American airplanes to bring their frightfulness home to the Hun.

RELIEF ROOMS FOR BELGIANS ARE OPENED IN RICHMOND

Mrs. W. A. Boone, chairman of the Belgian relief committee, announces that the receiving rooms of the committee will be at 923 Macdonald avenue and 123 Washington avenue. The rooms will be open both Monday mornings during the campaign, but collections will be made every day.

The household with any clothing that is not working regularly is going to be blackballed in the "Real American Club" after next week.

The Belgians are sorely in need of warm clothing before winter sets in and this clothing is to be collected from the thousands of families having suits and overcoats, dresses, wraps, underwear, shoes, stockings and innumerable articles of clothing that will keep men, women and children warm.

Open up the dark closets, clean out the attic, dig into the old trunks, cheat the moths. Just as the right kind of a young man feels all wrong without a uniform these days, so the right kind of a family will be ashamed to harbor useful clothing that can add to the protection and comfort of the suffering.

Deliver your donations if it is in any way possible for you to do so; if not, telephone Mrs. Boone, Richmond 1012, or call the Public Library, Richmond 601, and some one will call for your contribution.

The committee wishes it announced that no gifts for the children will be received. The need for clothing being too urgent to allow shipping space for anything but necessities.

ECHO CLUB WILL GIVE THEIR SECOND ANNUAL BALL

The Echo club members will hold their second annual ball at East Shore park this evening and expect one of the largest crowds that ever attended the park to be present. The club has given many small social affairs of this kind at its club rooms, but none can compete with the dance tonight.

The committee in charge promise every one a good time and being an Echo dance it is assured.

U. S. TROOPS WIPES OUT HUN DEFENCE AT GATE TO THE RHINE

WITH THE AMERICAN ARMY ON THE LORRAINE FRONT, Sept. 21, 10 a. m.—A hundred Germans, led by two officers, debouched from Dampvilloux last night and attempted to emplace six heavy machine guns and two lights guns near the Americans' advanced lines, but our batteries went into action, blowing up the post and scattering the enemy.

American patrols captured two heavy machine guns from the Germans.

A German patrol that was reconnoitering near Vilcey and Fay-en-Haye encountered an American that took two of the Germans prisoners.

(Dampvilloux lies on the center of the American line, in front of Metz. It is about eight miles west of the Moselle river.)

WASHINGTON, Sept. 21—Embarkation of American soldiers for all fronts overseas now has passed the 1,750,000 mark, General March announced today. He said military news during the past week from all fronts has been continuously good.

On the Lorraine front, where General Pershing's first American army has completed its operation to eliminate the St. Mihiel salient, the situation has become stabilized, with the enemy hurriedly perfecting a new line in front of the Americans. This line stretches for 20 miles from Malzeray to the Moselle at Vandieres. The Americans now are 10 miles from Metz and an equal distance from Conflans.

Answering questions regarding specific American units, General March said the Ninetieth Division (Texas and Oklahoma national army troops) is in the Vosges, while the thirty-sixth (Texas and Oklahoma

MORE RICHMOND MEN CALLED TO JOIN COLORS

The adjutant geenral has called for two male stenographers from the local draft board who will be entrained for cantonment on Monday evening. They are special service men and will follow their occupation after being regularly inducted into the army.

On September 30th 10 white limited service men are to be sent out by the local draft board to Camp McDowell, Angel Island. There are no special qualifications designated for these men.

The next big entrainment for class 1 men will take place in Richmond on the 7th of October or thereabouts, and these are to be sent to Camp Lewis, Washington. This call will clean up all the old draft and some may be taken out of the later class of registrants. These are to be all white men and are intended for regular line service.

MRS. MIXON RETURNS

Mrs. J. Mixon, who has been visiting in Woodland, has returned to her home in this city.

MAYOR PAT LUCY ESCAPES DEATH SMALL MARGIN

CROCKETT, Sept. 21.—Mayor Pat Lucy had a narrow escape from deaths in the waters of Carquines Straits opposite this city last night and the timely arrival of a fishing boat while the mayor was grasping at thin air, saved him.

Mayor Lucy was crossing the straits with a companion when his boat capsized and both men were thrown into the water. Dr. O'Malley was summoned to attend him when the mayor was taken to his home here, and today he is resting and recovering from the effects of his voluntary plunge into the bay.

Important Meeting

There will be a meeting Monday evening of the entertainment committeee of the Red Cross at the Labor Temple, Fourth street and Macdonald avenue. Dr. Lucas and George B. Fredenberg will talk to the committee on first aid. The members of the committee are urged to be in attendance.

AUGMENTED BELGIAN RELIEF COMMITTEE HOLDS FIRST MEETING

The augmented Belgian relief committee met at the office of Senator J. C. Owens yesterday afternoon in pursuance to the announcement in the Record-Herald and plans for the winter campaign were mapped out in detail. Mrs. Boone and Mrs. Lucas have been doing the work for the Belgians in this city during the past year, but it has grown to such proportions that it is impossible for two individuals to handle it in a satisfactory manner so the larger committee was decided upon.

The idea is to secure not only cast-off clothing for these deserving and sorely afflicted people, but to raise a certain amount of money as well. It has been suggested that $500 would be about the right amount of money for the people of Richmond to contribute, beside the contributions of clothing. Here is the new committee which the chairman has called for service:

Mrs. W. A. Boone, chairman; Mrs. W. S. Lucas, treasurer.

Finance—Chas. J. Crary, E. J. Downer, C. S. Downing.

Publicity — J. F. Galvin, Frank Hull, F. J. Hulanski.

Club and Social—Mrs. Wm. Faber, Mrs. W. H. Lunsford.

Entertainment and Lodges—Chas Donnelly, H. J. Hennessy.

General — Mrs. Edgar Cunningham, Mrs. W. S. Lucas, Mrs. Elizabeth Wright.

Labor—Mayor W. L. Lane Chas. Washburn, J. C. Thornton, F. J. Hulanski.

Standard Oil—W. L. Lane J. F. Brooks, Mr. Fredenburg.

Schools — Miss Carrie Bedwell, Miss Nettie Winkrem, Miss Elizabeth Kinnear.

Committee to the churches and other fields will be announced as soon as appointed by the chairman.

These committees will meet every Thursday at 3 o'clock p. m. at the Chamber of Commerce hall, and every one of them is expected to be on hand with a report and a good report.

STANDARD OIL INCREASES WAGES OF WOMEN WORKERS

The Standard Oil Company is one of the most liberal concerns in the United States with its employes. They are now paying their women employes $4 per day for eight hours' work.

And Absolutely No Risk

Isn't that better than 6 per cent or 8 per cent and a chance that you may not only not get the earnings, but may even lose the earnings? Take today's paper—or any paper—and ten chances to one you'll read a story of unwise investment.

When you add to the earnings you add to the risk. That's an inflexible financial law. Of course lots of people take the same chances that are offered to you. But lots of people are prepared to bear the loss if it comes. Are you?

4 per cent and no risk is worth seriously considering.

Independent Democratic

A NATION'S EFFICIENCY.

Everyone works and there is a fine spirit of co-operation among the people of France, according to Lieutenant Paul Berthier and other officers of the mission of French ordnance engineers in America, where they are engaged in important work for the French government.

Men, women and children are all gladly doing their part to free the land from the invader, and although long hours are the rule, there is no complaint, for everyone realizes that the task must be accomplished and that only by supreme exertions will it be possible.

In the great rush of the German invasion, back in 1914, France, fearing for her very life, summoned every man to arms. This was a mistake, for munitions factories were denuded of their skilled workmen and many of them gave their lives in stemming Von Kluck's sweep toward Paris.

When the realization came that the munitions factories were hampered and that their men could serve better there than in the army, a problem was presented. For these men were already in the army, and no one was left outside except the men past 48 years of age, those physically unfit, and a few great specialists. Even the managers of the shops were in the fighting line.

The "work or fight" rule at once, therefore, became a reality, for men were sent back from the army to the factories only so long as they could serve better than in the ranks. If their work proved unsatisfactory, they were promptly returned to their places in the battle line.

France has now found a reservoir of unskilled labor among the German prisoners. They are used for heavy work, and Chinese and Sengalese workers have been imported for supplying other labor needs. Women have shown remarkable adaptability in the skilled trades, and do some really remarkable work in the munitions factories, particularly on shells.

The supply of male skilled labor of military age, however, can only be increased by request to the ministry of munitions for the services of men at the front. In many factories wounded soldiers have been employed advantageously on certain work. In practice the rule is that men are not returned to munitions factories unless they have passed their thirty-fifth birthday or have served two full years in the army.

"It is not often necessary to send men back from the factories," says Lieutenant Berthier. "The war is a fact to every man and woman in France. We shall have to stop and think what we shall do when the war is ended.

"Everyone works for the war. Think what it means that we have made guns to enable America to enter the fighting line earlier than she could have done! Think of the land, the factories, the coal mines, and, most of all, the men we have lost. It is only because everyone in France works hard that we can have guns and ammunition for our allies and our own armies. Although I understand that other types of 75's are manufactured in England and America. I know that at Bourges all the French 75's—guns that have become famous—are made for the French and American armies. Think of what a plant it is that can produce in quantity for several nations!"

This tremendous output, according to Lieut. Berthier, is only possible through keeping the factories going 24 hours a day and seven days in the week.

FOURTH LIBERTY LOAN

Once again our government is asking for our money. The Fourth Liberty Loan, to be opened for subscription September 28 is our opportunity to lend.

With the faith that characterizes her progress, our nation has called for a sum larger than any of the previous loans called for—a sum larger than most of us can comprehend.

Six billion dollars, for the immediate use of our army and navy departments is the minimum with which the Government can be satisfied at present.

As yet, we have not begun to feel the burden of providing the Once again our government is as a nation nor as individuals do we come in the class with the other belligerents in the matter of financial obligation. Compare the ratio of national debt to the total wealth of the nations at war:

Germany	37 per cent
France	35 per cent
Great Britain	45 per cent
United States	5 per cent

We have not tapped the surface of our national wealth in our quest for war financing.

Nor do we as individuals carry a heavy per capita burden. Against Germany's $450; France's $550; Great Britain's $600; Italy's $190; Austria's $280; place the United States' $115.

One hundred and fifteen dollars is not much to owe for our country, is it? What one of us is here who would hesitate to assume that obligation for a friend, not to mention one to whom we owe all that means most in life to us.

We might give the country that hundred and fifteen dollars which it figures is the debt of each of us; give that sum before we begin to invest for ourselves. But the Government does not ask that, does not expect that. It asks to borrow what we can save and earn in this hour of special need.

Marshal Foch says: "The will to win is half the battle." American soldiers have shown their will to win.

The Fourth Liberty Loan is before the American people. It must prove our will to win.

MEN'S CLUB MEETING AT THE BAPTIST CHURCH

The newly organized Men's Club of the First Baptist church met for its first monthly social evening last night at the Baptist church.

Wilford Cook was elected president.

Political electioneering of officers with initiation of new members made a jolly evening. Refreshments were served at the close. The club is in a flourishing condition.

"Six months of war among the great powers will bankrupt the world," said economists before August, 1914.

Now, with the Allied Powers preparing to end the war in its sixth year, the least of their worries is finance.

Make your Fourth Liberty Loan subscription a heavy one—oversubscriptions will make the American army that much stronger in morale.

Can you imagine the feeling of the boys at the front if the Fourth Liberty Loan is undersubscribed?

And their corresponding elation at a smashing oversubscription?

By the way, can't you stretch that Fourth Liberty Loan subscription to a little larger size.

Every dollar makes them holler—Buy Liberty Bonds.

NAVY EMBLEMS FOR JACK TARS INSTEAD OF GEM LOVE TOKENS

Uncle Sam's aide to cupid at one training station at least, Great Lakes, are not solitaires, but rings with gold insignia of the branch of service in which lovesick Jack Tar may be enrolled, be it aviation, hospital corps or gun crew. With the ban on booze to increase the surplus cash, this new and better way to sustain the zest of navy life has proved a success.

The intrinsic value sought for by the canteen officers with which to satisfy the hunger for love tokens, was found not only in rings but in gold and silver lockets, wrist watches, service pins, souvenir spoons and other items in the chief yeoman's stock. The mails have been burdened with such, with the navy designs over all.

TO ALL PATRIOTIC CITIZENS

The following appeal to patriotism is issued by the Power Administrator appointed by the Railroad Commission of the State of California:—

Conserve Electricity

Patriotism demands that you save electricity for war industries.

Northern and Central California have a **SERIOUS** power shortage because of lack of rain during the past winter and the increased use of electricity by war industries.

These War Industries Must Have Power

There is not enough power for everybody at the present rate of consumption. It is up to you to save. Turn off lights whenever possible and use lower power lamps.

This is one other thing you can do in the great struggle.

Not One Chinese In Ten Thousand Has Constipation

except a few drug users, while about 90 per cent of the Americans suffer from this dread complaint. The FONG WAN HERB SPECIALIST gives the following explanation of this phenomenon. "When a Chinese is ill, he immediately consults a Herb Specialist and the cause is removed, but, when an American feels bad, the first thing he does is to take a PHYSIC. This may relieve him temporarily, but repeated doses of such drugs eventually paralyze the bowels. As the bowels then no longer move naturally, physic taking becomes a habit, the weakened bowels drag, and there is a heavy pressure of gas on the rectum. If the poor victim be a man, the physician will usually tell him that his trouble is piles; if a woman, that it is female trouble."
By drinking the Fong Wan harmless Chinese herbs, hundreds of Americans have not only been relieved of their stomach and bowel troubles, but have been made normal again. Their testimonials are on file.

FARM COIN, CROPS AND FIGHTING SONS AID WINNING WAR

Shiploads of Bacon a Mere Item in Procession of Food to Fighters, Civilians

Nowhere has appeared a more succinct reminder of the enormous resources of the American farm and the farmers instant readiness to meet any war demands than a brief dispatch from London recently announcing the suspension of the ration limit on bacon.

Owing to the accumulation of stocks of 97,000,000 pounds of bacon from America, the dispatch said, the rationing of bacon would be abandoned for the time.

Since this enormous stock was for civilian requirements and probably a much greater quantity had been safely landed for allied army needs it does not require extreme imagination to visualize the long procession of cargo ships which has steamed across with this one item of the food supply.

All the cargo space of from eight to twelve freighters of average size would be required to transport 97,000,000 pounds.

WHEAT GROWN DESPITE SABOTAGE

Despite the burning of grain elevators, the torpedoing of wheat ships, and sabotage and arson in the grain fields of the country, the American farmer has gloriously played his war part by producing sufficiently big crops to feed the allied world, as his sons have brought fear in to the hearts of the enemy at Cantigny and Chateau Thierry and in the Rheims-Soissons battle.

Now we read that others besides von Kuehlmann believe that Germany cannot win by force of arms, as those Germans not dupes of the propaganda-fed German press already knew that England could not be starved by von Tirpitz' ruthless submarines.

But far from being satisfied with this major part in winning the war, the farmer has played a liberal part in financing the struggle. Last spring, with seed and implements to buy, and all the pre-harvest expense of wages and maintenance, not an agricultural district in the west failed to meet or oversubscribe its quota of the Third Liberty Loan.

FARMERS FIRST IN LIBERTY LOAN

Oregon, almost purely an agricultural and stock-raising state, was the first in the district to announce its quota exceeded.

The farming districts were uniformly more prompt in meeting their assigned obligation than were the metropolitan districts where banks and factories were concerned.

With the coming of the Fourth Liberty Loan, which will overshadow any previous financial triumph of the United States by two to one, the farmers part should be relatively easier since he now has turned his matured crops into cash.

The Fourth Liberty Loan, calling for twice as much as any of the previous war funds, all of which were epochs in the country's history, will show the United States really buckling down to business.

4TH LOAN CALLS FOR FULL EFFORT

Despite our present training in thinking in nothing less than six figures, the Fourth Liberty Loan is a huge sum and will require a long, strong pull from every citizen if it is to be accomplished in three weeks, from September 28 to October 19, allotted.

There is no more doubt of the fulfillment of the loan on schedule time than there is that the American army will throw von Hindenburg and Ludendorff back across the Rhine.

And as surely as tens of thousands of the bravest of American youth will lose their lives in the fierce combats in which the Hun will be forced backward out of France, just so surely will the raising of the great Liberty Loans not be accomplished without every American marshalling the last dollar of his resources, and abating every unnecessary expenditure.

General March said that more detailed reports of the American operations at St. Mihiel spoke highly of the French troops which participated.

WAR CALL FINDS WOMEN PREPARED FOR VITAL WORK

Heartstrings Bind Western Homes Close to French Battlefields—Fighters' Hands Upheld

By Mrs. Hazel Pedlar Faulkner

"Twenty-six Americans cited for conspicuous bravery and valor."

Your heart thrilled, too, to that news, which now has been repeated many times. The little shivers of pride ran down your spinal columns, women of the West, as you read of the things those boys did over there. And honestly, down in your heart, didn't you say, for the thousandth time, "I wish I could do something worth while!"

Something worth while—of course you can.

You can do something immensely worth while, just now, for those same boys and all their kind.

You can make possible the continuation of their deeds of valor and heroism. You can help them put an end to the need for such sacrifice and hardships as they have been compelled to make.

MAKE DEEDS OF VALOR POSSIBLE

You are the instruments chosen for a great work, and the time for service is here.

The Government is asking you once more to bring out your hidden treasure—the dollars you have been carefully putting away for some special need. The call for the Fourth Liberty Loan has been sounded. Our country's challenge to our patriotism has been voiced once more.

Western women have a record for loyal response to all of the previous Loans. Theirs has been a generous reply to the country's war need.

The daily lists of names of American boys who have given their all for their country have found the West's sons among the number. It is for such as those, and for the things for which they fought and fell, that the aid of the folks at home is sought. Ours is a lesser part, but it is an essential part.

PATRIOTISM CHALLENGES

The report of what women all over the United States did for the Third Liberty Loan is an inspiring page in the history of united war effort. From east to west, from Canada to the Gulf of Mexico the story is the same. Everywhere the women came forward, bringing their dollars for the Loan.

What they will do in this Fourth Liberty Loan will be no less creditable. The time for questioning is past. The day of speculation is gone. Here and now, with one aim and one purpose, you women of the West in line with your sisters from all over the land, will march in the army behind the khaki-clad boys over yonder, furnishing the funds not alone for the successful carrying on of the war—that we are pledged to do,—but for the speedy complete defeat of the enemy.

Money means power in this struggle between the right and wrong. Dollars spell success in the conflict for righteousness. Yours is a vital part in the struggle, women of the West,—the "thing worth while" is yours to do NOW.

HUNS HAD NO BELGIUM 700 YEARS AGO; OTHER NATIONS FELT IRON HEEL

A record of seven centuries of consistent glorification of brutality and contempt for the principles upon which modern civilization has grown, is revealed in an excerpt from the Opus Majus of Roger Bacon, written 700 years ago, and a paragraph from Friedrich Wilhelm Nietzsche, the late German philosopher.

The fact that Nietzsche died in a madhouse makes it more understandable, perhaps, why he was proclaimed the true prophet of "deutschum" and the German "will to power." The Kaiser is not more mad than his war lords and his Nietzsche-befuddled people.

Bacon's views on the Germans of his time were as follows:

"Hence the Saracens and pagans in many parts of the world are becoming quite impossible to convert; and especially beyond the sea, and in Prussia, and the lands bordering on Germany, because the brethren of the German house (i. e., Teutonic knights) ruin all hopes of converting them owing to the wars which they are always stirring up, and because of their lust for domination. There is no doubt that all the heathen nations beyond Germany would long ago have been converted but for the brutality of the brethren of the German house, because the pagan race has again and again been ready to receive the faith in peace through preaching. But they of the German house will not allow it, because they want to subjugate them and reduce them to slavery, and by subtle persuasions they have for many years deceived the Roman church. This is notorious, otherwise I would not make the charge."

Nietzsche, revealing true German lack of understanding of the principles which have brought the "greatest good to the greatest number," said:

"With this I conclude, and pronounce my sentence: I condemn Christianity. To me it is the greatest of all imagin-

able corruptions. The Church is the great parasite; with its anaemic idea of holiness, it drains life of all its strength, its love, and its hope. The other world is the motive for the denial of every reality. I call Christianity the one great curse, the one great intrinsic depravity, the one great instinct of revenge, for which no expedient is sufficiently poisonous, secret, underhand, to gain its ends. I call it the one immortal shame and blemish upon the human race."

"What are those Verdampft Yanks yelling about now?" said Fritz on Parade.

"The Schweinpigs have just heard that the Fourth Liberty Loan was oversubscribed fifty per cent," the Sergeant in Special Charge of Baby-Killing said.

CITY LIBRARIAN IS VISITOR IN METROPOLIS

Miss Norah McNeill, city librarian, went to San Francisco this morning to attend the state conference of the United War Campaign of California. The organization for the state campaign is to be perfected at this meeting.

The total sum to be raised in November by this campaign is $170,000,000, and of this amount $3,500,000 is to go to the American Library Association to be expended for camp library buildings and for books for the American soldiers both in the United States and in France.

Thrift Stamps First

Little Bobby is a 100 per cent patriot. He likes his candy, ice cream soda, popcorn, peanuts and chewing gum just like every little boy—but today his spending money oges for "Thrift Stamps First."

Every week he adds one or two to his Thrift Card—and he is happy that in his way he is doing as much to help win the war as his Big Brother Bill who enlisted in the Marines and is on the firing line "'over there" now.

We can all help beat the Kaiser and the things for which he stand—some with our swords—others with our savings.
Have you the Thrift Stamp Habit? You should have—and the time to start is now.
